Newsflash Februari 2026

Accountmanager - Plinth Appartments - ISG-Hosts

Account Manager & Treasurer
Recently, our homeowners' association (VvE) has been assigned a new account manager at VvE-Gemak. In January, the board met with them in person. This initial contact was experienced as pleasant and gives confidence that communication will improve and that points of attention will be addressed promptly.
In addition, as of 1 January, an external treasurer has been appointed. They are currently reviewing the VvE's financial administration in detail. With this step, the board is taking an important move toward greater oversight, continuity, and professionalization of financial management.

Plinth Apartments
The work to resolve leakages at the plinth apartments, such as sealing and applying a new coating, is currently on hold due to weather conditions.
For proper adhesion and a durable execution of these works, a minimum outdoor temperature of 10 degrees Celsius is required. At lower temperatures, the quality of the work cannot be guaranteed.
It is expected that the work can be resumed around mid-March, once weather conditions allow. Naturally, we will continue to monitor the situation and inform residents as soon as more clarity about the planning is available.

ISG Hosts
In Hoogoord, ISG hosts are active in contributing to a pleasant, safe, and liveable residential environment. The hosts are visibly present around the building and act as an easily accessible point of contact for residents.
They supervise general order, identify any notable situations in the living environment, and can support residents with questions or reports of nuisance. Where necessary, they coordinate with other involved parties.
