Second-Hand Items – Floor Coating - Flat Coaches

Second-Hand Items

As part of a sustainable society, we believe it is important to give useful items a second life. Therefore, residents are permitted to temporarily place clean and usable items in the elevator lobby so that other residents can take them free of charge.
We kindly ask everyone to also share these offers in the WhatsApp group, so that as many residents as possible are informed about the available items.
To keep the elevator lobby tidy and safe, we ask the person offering the items to ensure that any items not taken by the end of the week are removed.

Floor Coating Works by Sijtsma

At the end of April, the coating work on the front-side gallery walkways of the apartment building began. The work was expected to take approximately six weeks to complete. Due to unfavorable weather conditions, the schedule has been delayed.
You will receive further information in a letter from VvE-Gemak indicating when and where the work will take place.

Flat Coaches

Previously, our building had liveability ambassadors. Since this role was originally supported by the municipality, it has been decided to use the term *flat coaches* from now on.
Flat coaches are residents who volunteer to help maintain a pleasant, clean, and safe living environment. They receive a volunteer allowance for their work. Each week, the flat coaches conduct a walk-through of the entire building. They keep an eye on things, identify areas that need attention, and help ensure that the common areas remain tidy. When necessary, they may politely approach residents regarding situations that affect the quality of life in the building. Through their efforts, the flat coaches make a valuable contribution to our living environment. We would like to thank them for their dedication and hope for the cooperation of all residents in keeping the building clean, safe, and pleasant for everyone.
